 Location on chimney (circle): Front Rear Left Right
 Flue Shape (circle): Square Round Rectangular *Notes:*

ID of Flue #3: _____ x _____
 OD of Flue #3: _____ x _____
 OD of Chimney: _____ x _____

1. Since your chimney pot must fit over the flue completely, with no leaks around the edges, the **Base OD** (outside dimension) **of your chimney pot must be equal to or larger than the OD** (outside dimension) **of your flue**. Base OD refers to the Outside Dimension (OD) at the base (bottom) of the chimney pot, and is listed under every chimney pot in our online and print catalog.

2. Since you want your chimney pot to sit on your chimney, but not stick out over the edges, the **Base OD** (outside dimension) **of your chimney pot should be equal to or smaller than the OD** (outside dimension) **of your chimney**. Base ID refers to the Inside Dimension (ID) at the base (bottom) of the chimney pot, and is listed under every chimney pot in our online and print catalog.
